SUMMARY STATEMENT

ORDINANCE OF THE MUNICIPAL COUNCIL OF THE CITY OF JERSEY CITY ADOPTING AMENDMENTS TO THE POWERHOUSE ARTS DISTRICT REDEVELOPMENT PLAN CREATING A NEW SOUTHERN EDGE TRANSITION DISTRICT

This ordinance amends Powerhouse Arts District Redevelopment Plan to create a new "Southern Edge Transition District" at the corner of Warren and Steuben Streets (shown on attached map). This new district will permit a building height bonus of 65 additional feet and require a theatre and other art related spaces on the second floor.

**PROPOSED AMENDMENT TO THE POWERHOUSE ARTS DISTRICT
REDEVELOPMENT PLAN.**

AS RECOMMENDED BY THE JERSEY CITY PLANNING BOARD MAY 5, 2015

**ALL NEW TEXT TO BE INSERTED AS A NEW ZONE DISTRICT WITHIN SECTION
VIII. MAPS TO BE AMENDED TO REFLECT NEW ZONE**

G. Southern Edge Transition Zone:

The Southern Edge Transition Zone consists of Lots 13, 17, 18, 20 and 21 on Block 13002 within the Powerhouse Arts District (PAD) Redevelopment Area. These lots are located between high rise development along Christopher Columbus Drive to the south and the high rise Arts Theater Residence Overlay Zone to the north. The Grove Point high rise development is located just to the west of Block 13002 and the High Rise Zone of the PAD Redevelopment Area is located immediately east of Block 13002. However, not all properties on this block are within the PAD Redevelopment Area. Those properties which are not within the PAD Redevelopment Area are zoned R-2 and R-3 which permits development of between 4 and 8 stories. Existing buildings on the block range for 3 to 10 stories in height. The purpose of this district is to provide for a transition from the high-rise development and zoning in the surrounding area to the existing zoning on the block and to provide incentives to consolidate existing vacant lots and provide additional floor area dedicated to the arts.

Specific Requirements of Building Design shall be as follows for all development within the Southern Edge Transition Zone:

1. All new buildings within the Southern Edge Transition Zone shall be of contemporary design to be representative of the current era and shall not be designed as an imitation of an architectural style of a previous period. The building shall have a significant top, incorporating architectural features to enclose the elevator penthouse and other rooftop equipment so as to screen these elements from surrounding buildings.
2. Permitted Uses: Permitted principal and accessory uses shall include all permitted uses listed in Section VII. A and B inclusive of residential.
3. Minimum Lot Area: 10,000 Sq. Ft.
4. Maximum Height: One Hundred and Twenty-five (125) Feet.
5. Minimum Ground Floor Height: Twelve (12) Feet, floor to ceiling, and Fourteen (14) Feet, floor to floor; excepting parking areas, utility rooms, storage areas and other similar spaces.
6. Minimum Floor to Ceiling Height above Ground Floor: Nine (9) Feet.
7. Maximum FAR: 8:1.

8. Setback Requirements:

- a. **Front Yard:** Buildings shall be setback along all front and street lines a distance sufficient to meet the minimum sidewalk width standards of this plan. In the alternative, the sidewalk width may be reduced to match other sidewalks on the street, provided that a minimum sidewalk width of 14 feet is maintained. Balconies, bays and other similar architectural features may project from the building façade up to 4 feet into this setback area provided they are located above the second floor and are not less than 25 feet above the adjacent sidewalk.
- b. **Side Yard:** Zero foot maximum. Where a side lot line is a street line, the Front Yard requirements above shall apply. Where a proposed building of 10 stories or greater adjoins an existing building of 5 stories or less; the proposed building shall provide some form of architectural relief along the side wall in order to provide windows and visual interest within the side façade of the proposed building visible above the existing building. No blank walls along any side wall shall be greater than 30 feet in width.
- c. **Rear Yard:** Zero for ground floor areas, and a minimum of 20 feet for all portions of any building above the ground floor. For corner lots, lot lines not adjoining a street shall be considered side lot lines and shall adhere to the side yard requirements above, provided that the rear wall of any proposed building above the ground floor shall not extend for a depth greater than 75 feet, or 75% of the lot depth, from the street line so as to form an open area at the rear corner of the lot.

9. **Coverage:** Total building and lot coverage may be 100% at the ground floor level. Portions of buildings above the ground floor shall not exceed 80% lot coverage. Corner lots may exceed this requirement, up to 90% coverage, consistent with the rear setback exception above.

10. **Parking and Loading Requirement:** Recognizing the unusual shape of Block 13002 no off-street parking or loading is required. However, where feasible, the provision of some parking is encouraged up to a maximum of .25 spaces per unit. Where parking is provided, a maximum of one (1) garage exit/entry point shall be permitted, and shall be limited to no more than 12 feet in width.. No garage opening shall be located on Luis Munoz Marin Boulevard.

11. **Certified Affordable Artist Growth Share Requirements** – Buildings constructed pursuant to this section shall provide ten percent (10%) of all residential units (as rounded to the nearest whole number) as workforce affordable units. These units shall be restricted to workforce affordable units for a period of thirty (30) years, beginning with the issuance of the first certificate of occupancy for a workforce unit. In lieu of any other requirement outlined in this redevelopment plan for Certified Artist affordable units, including the marketing and control of any such Certified Artist affordable units, the workforce units constructed on-site shall be subject to a 180-day exclusive marketing period to qualified Certified Artists who meet the income requirements for workforce housing defined in this section. At the end of this 180-day period, the workforce units may be offered to anyone in the general public who meet

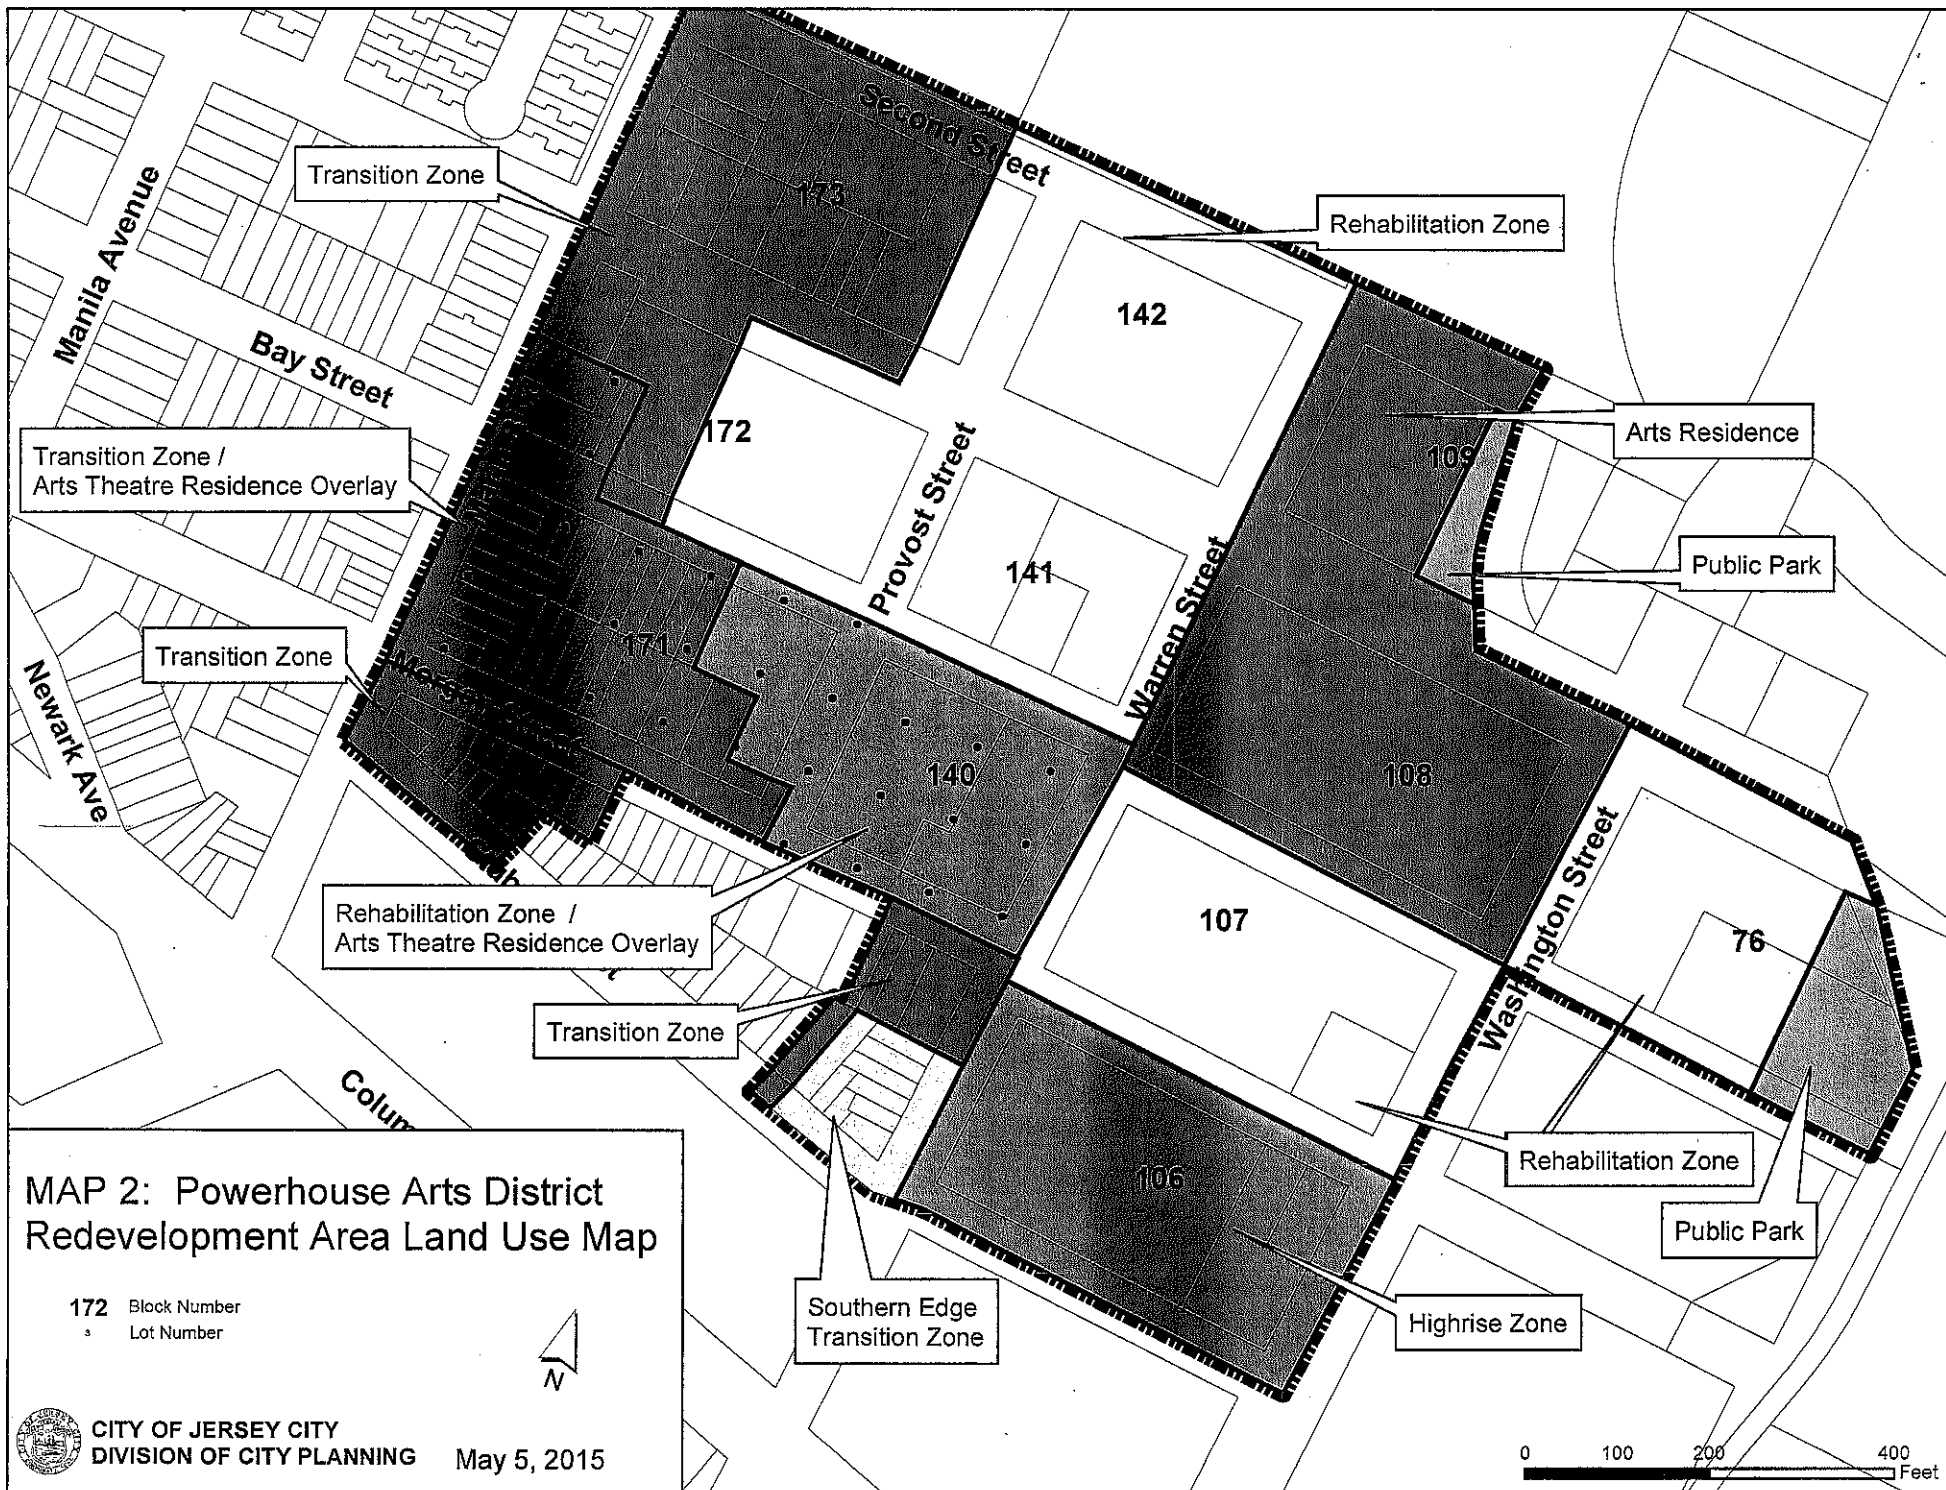

the income requirements for workforce housing. Up to 50% of the workforce housing requirement may be provided off-site and shall be exempt from Certified Artist residency requirements. This off-site workforce housing option may also be satisfied through the provision of a financial contribution to the City of Jersey City in an amount up to one hundred and fifty thousand (\$150,000) dollars per required workforce residential unit. This contribution shall be paid by the developer to the City in two (2) installments: (1) fifty percent (50%) of the contribution shall be paid prior to the issuance of any building permit for the project, and (2) the remaining fifty percent (50%) of the contribution shall be paid at the time of issuance of the first final certificate of occupancy. These contributions shall be specifically earmarked for the construction of affordable housing within the City of Jersey City.

12. Bonus Incentive: Among the goals and objectives of the Powerhouse Arts District is to encourage a concentration of "Arts-centric" uses such as theaters, art galleries, art studios, rehearsal spaces, museums and other cultural and entertainment amenities. Therefore, developments that provide additional space dedicated to the arts shall be permitted a development bonus as more fully described below.

a. In order to qualify for the development bonus the proposed development must meet the following standards:

- i. The subject property must meet or exceed the minimum required lot size.
- ii. The development must dedicate the entire second floor of the proposed building only to Principal Uses related to the performing arts and fine arts such as: Theaters, Art Galleries, Museums, Artist Work Studios, Dance Studios, Music Studios, Film Studios, Photography Studios, Rehearsal Studios, and such other similar arts related uses as the Planning Board deems acceptable. Accessory Uses customarily associated with, subordinate and incidental to an arts related principal use as listed above are also permitted.
- iii. The gross floor area of the second floor must measure a minimum of 10,000 square feet, and have a minimum floor to ceiling height of 12 feet. Larger windows along all street frontages shall be provided to allow for visibility into the arts related spaces from the street. At least one-third (1/3) of the gross floor area of the second floor must be dedicated to a "black box theater" suitable for the performance of live theatrical or dance productions. The owner shall contract with a theater/arts related not-for-profit 501(c)(3) corporation to operate the "black box theater". The minimum floor to ceiling height within a "black box theater" shall be 14 feet. Appropriate ventilation systems and sound attenuation systems shall be provided pursuant to the needs of the anticipated uses and in conformance with all applicable codes.
- iv. A separate entrance lobby must be provided on the ground floor to provide access to the second floor art related uses, including an elevator, and must be designed to accommodate the anticipated occupancy loads of the arts related spaces pursuant to the appropriate building and fire code standards. The elevator shall be sized to accommodate the need to transport art works, raw materials, stage sets, etc.

- b. Development projects meeting the criteria outlined above are permitted the following bonus provisions:
- i. **Maximum Height – One Hundred and Ninety (190) feet.** Within this height, the building shall include a ground floor containing permitted commercial uses and art related uses as required by this Redevelopment Plan; a second floor dedicated to art related uses as specified above; and up to 15 stories of residential or other permitted uses. An amenity penthouse level is also permitted above the permitted height if it is used exclusively for recreational and building amenity space for residents of the building, and is setback at least ten (10) feet from all facades of the building.
 - ii. **FAR – The permitted floor area shall be determined by the permitted height, setback and coverage requirements.**
 - iii. **Coverage – In addition to the 100% coverage permitted for the ground floor level, the second floor containing the arts related uses may also occupy up to 100% of the lot area.**
 - iv. **Arts Contribution – The requirement for a monetary contribution to public art as described in Section VI. A. 8. of this Plan shall be waived.**
 - v. **Affordable Housing – In recognition of the extraordinary costs of constructing and maintaining such a significant portion of the building restricted to only art related uses; a portion of the developer's workforce housing obligation as found in paragraph 11 above shall be waived as follows: For each one thousand (1,000) square feet of gross area dedicated to arts related uses provided, one (1) workforce housing unit shall be deducted from the developers obligation. The units may be deducted from the required on-site and/or off-site workforce units at the developer's discretion.**

Resolution Purpose

The purpose of this ordinance is to clarify and reinforce the purpose of the NC district by ensuring that ground floor commercial is preserved along streets where it already exists, and has existed historically. Additionally, the purpose of this ordinance is to also recognize that there are places zoned Neighborhood Commercial where ground floor commercial is more appropriate as an optional use. This ordinance preserves the existing ground floor commercial and allows for flexibility for certain properties where it is not appropriate.
